

Cloud Email and Security

Core Managed's Cloud Email and Security

Our comprehensive cloud email and collaboration security platform seamlessly integrates with popular communication tools, providing unparalleled protection against cyber threats.

Advanced Threat Protection

Defend against advanced email-borne threats with our patented inline and API-based technologies. Scan emails before they reach the inbox, neutralizing threats at the earliest stage to safeguard your organization's communications.

Multi-Layered Security Strategy

Benefit from a multi-layered security approach that encompasses AI and machine learning algorithms. Detect and defend against phishing, malware, ransomware, and more with continuous updates to tackle evolving threats.

AI-Driven Threat Detection

Leverage self-learning algorithms to analyze user behavior and communication patterns. Quickly identify anomalies signaling security threats, enabling proactive responses to potential breaches.

Seamless Integration

Enjoy seamless integration with popular SaaS applications without rerouting email traffic. Deploy minimal latency, ensuring swift and efficient operations for your organization.

Suite of Powerful Security Tools

Access anti-phishing, anti-malware, URL scanning, and sandboxing tools to dissect incoming communications. Safely test suspicious files and links in a controlled environment without risking system integrity.

Outbound Email Monitoring

Prevent data leakage and ensure compliance with regulations. Monitor outbound emails to keep sensitive information secure within your organization's confines.

Flexible Policy Enforcement

Customize security levels based on your organization's needs. Define rules for data handling, configure alerts for suspicious activities, and set permissions for file sharing to maintain a robust security posture.

User-Friendly Dashboard

Gain real-time insights into threats, user behavior, and system health. Make informed decisions quickly with detailed reporting tools and thorough analysis of security incidents.

Rapid Deployment and Exceptional Support

Experience rapid implementation and immediate protection without downtime. Our 24/7 customer support is available to assist with any queries or issues.

Promoting Collaboration

Foster teamwork within your security operations with centralized threat intelligence and incident-sharing features. Work collaboratively to address threats and strengthen defenses collectively.

Why Choose Core Managed?

Our comprehensive solution offers preemptive threat detection and response, seamless integration, user-centric design, and robust compliance features. Choose Core Managed for professional, reliable, and forward-thinking Cloud Email and Security.
